

CITY OF DURHAM GOALS & FY 2008-09 MAJOR INITIATIVES

During its Budget and Policy Planning Retreats in January and February 2008, the City Council re-affirmed its eight over-arching goals. The Administration has developed several Major Initiatives that it will pursue to accomplish the Council's goals.

The Major Initiatives related to Council's goals included in the FY 2008-09 Budget are outlined below and will be accomplished through a variety of strategies. The Administration will report to Council on a quarterly basis. The Administration has identified specific performance measures to be tracked over time that will indicate the City's performance in achieving Council's goals.

Results Based Accountability

During the summer of 2004, the City of Durham partnered with Durham County to embark on a community-wide Results Based Accountability Project. This project complements the performance measurement and monitoring that is conducted by each City department and reported in Sections VI – IX of this budget, as well as the UNC School of Government's Performance Measurement Project results in Section XII. The community-wide effort focuses on results and indicators about whole populations, while the departmental performance measures are about the well-being of specific populations. We recognize that we can not expect individual city departments, or government as a whole, to be responsible for the well-being of the entire community.

In order to achieve these goals, we must develop and monitor useful data. With the data, we can develop strategies for improving our outcomes in the areas that have been identified as goals. After the strategies are implemented, we can monitor our successes and failures toward achieving our goals by tracking the data. We intend to focus our budget and policy discussions on achieving the results we want, rather than fighting over scarce resources.

As we develop and monitor community-wide indicators and departmental performance measures, we strive to identify the most meaningful data elements. Rather than focusing on how much we performed or how well we did it, we are trying to answer the question "Is anyone better off?"

To report on what we have accomplished as a community – not just as government agencies – the City Council and County Commissioners have established eight community outcome groups to determine how best to measure, achieve and share success in areas that contribute to a better quality of life for us all. After measuring our progress in these areas over time, the results were incorporated into an annual Community Report Card to keep Durham's residents informed of our efforts to make positive, accountable change. We have published three annual progress reports beginning in 2005. We plan to publish annual reports each year. The reports are available on the internet at www.durhamnc.gov/rba.

Goal: All Durham citizens are safe.**Strategies:**

- Increase the number of, and resources for, Police Investigators to improve clearance rates.
- Support gang prevention strategies to reduce the number of violent crime.
- Continually work to improve response times to fires, which is the primary factor in fire containment.
